DETAILED ACTION

Drawings

1. The corrected drawing for figure 3 has been received. The examiner has accepted the drawing.

Allowable Subject Matter

2. Claims 25-32, 56-59, and 61-64 are allowed.
3. Regarding claims 25-32 and 61-64, the claims are allowable over the prior art of record because the prior art fails to teach or reasonably suggest an optical device comprised of three waveguides, wherein the second and third waveguides are coupled to the first waveguide via a first and a second bi-directional, polarization dependent path; a single Wollaston prism disposed between the bi-directional, polarization dependent paths; and a first converging optical subsystem having at least one focusing element, wherein the first and second bi-directional, polarization dependent paths are collimated between the single Wollaston prism and the first converging optical subsystem, in order, to collimate light through a single Wollaston prism, as claimed.
4. Regarding claims 56-69, the examiner agrees with the applicants' assertion on page 10 of the response of the office action that the method of propagating light between bi-directional, polarization dependent free-space paths of three waveguides and a single Wollaston prism is allowable. The prior art fails to teach or suggest a single Wollaston prism being utilized to spatially separate beams of orthogonal polarization between the waveguides, where the light is collimated going through the single Wollaston prism, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

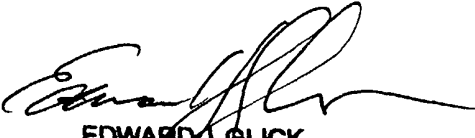

5. **NOTE: The applicants have cancelled claims 1-24, 33-55, and 60.**
